Easington Village Parish Council Corporate Risk Assessment 2026-27

May 2026

What is this document about?

We are aware that sometimes things happen to prevent us achieving our vision, aims and values. Obstacles can get in our way. Things can happen that with a little planning could be avoided or at least reduced. Sometimes we don't take advantage of opportunities because there are obstacles associated with them. They could relate to financial, political or environmental issues for example.

We call these obstacles 'risks.' This document sets out what we feel are our key strategic risks in the coming year and how we might tackle them.

What is risk management?

Risk Management is:

- Understanding what our risks and obstacles are;
- Considering the likelihood of them occurring;
- Looking to see what impact they might have;
- Deciding whether we can bear the risk or not;
- Looking to reduce, remove or transfer them; and
- Providing clear ownership of the risks.

We know that if we do not have effective management of risks we do not have effective management. As a pro-active Parish council we are moving to become more risk aware, and are committed to managing our risks.

We want to get the right balance between progressing innovation and change on one hand and avoiding shocks and surprises on the other. Risks can either be 'strategic' where they are crucial to the high level success of the Parish Council as a whole or 'operational' where they are crucial to specific activities or projects which contribute to the overall success of the Council.

In this document we have reviewed the main risks in achieving our mission. We will regularly monitor risks and carry out a full risk assessment and management exercise annually.

EASINGTON VILLAGE PARISH COUNCIL RISK ASSESSMENT

This document identifies risks, assesses likelihood and impact and includes an action plan for managing risks. Likelihood and impact have been assessed on a Low – Medium – High scale.
